Policy

Payment

Purpose

This policy outlines the conditions surrounding the payment terms of Quality and Safety Pharmacy Program (QSPP) related invoices.

Application

This policy applies to all pharmacies wishing to attain or maintain accreditation with QSPP. A Pharmacy will be charged the QSPP Annual Fee. Other invoices may include but are not limited to those listed in the Schedule of Fees on the QSPP website.

Invoices are issued on 28-day terms. All invoices must be paid by the due date. Payments can be made via:

- BPAY
- Cheque
- Credit card via phone or post
- EFT
- Online via the QSPP Customer Portal (excluding American Express).

Accepted credit cards include Visa, MasterCard and American Express. American Express card payments attract a 1.95% surcharge to cover merchant fees[1].

Overdue invoices

Where an invoice is not paid by the due date, QSPP may reasonably withdraw, suspend or deny the accreditation of a pharmacy consistent with the QSPP Program rules.

Payment plans

QSPP is unable to offer payment plans as the process cannot be delivered impartially to all pharmacies.

Pro-rata payments and refunds

QSPP is unable to accept partial payments for pharmacies that have identified they will be closing, merging, or transferring ownership part way through the accreditation cycle to which the invoice applies.

Similarly, QSPP is unable to provide refunds in those instances where the full amount has been paid and the pharmacy subsequently closes, merges, or undergoes a transfer of ownership part way through the accreditation cycle to which the invoice applies.
